(54) Title: VEHICLE HEADLIGHT AND LAMP

(57) Abstract: A vehicle headlight is described with a reflector housing (1, 21) and a front glass (22) which together enclose a headlight inner space. The headlight has a reference surface (15, 35) for defining the position of a lamp (7, 30) having a lamp body (8, 31) and a lamp base (9, 37) in the headlight. The headlight is constructed such that the lamp (7, 30) can be inserted such that the lamp base (9, 37) is positioned in front of the lamp body (8, 31), viewed against the direction of radiation of the headlight. In addition, a lamp (7, 30) is described which is constructed such that it can be inserted into the vehicle headlight in the manner described.
